CCR

Needs Assessment

Targeted Custom Analysis to Inform Strategic Planning, Board Decisions, and Executive Leadership

Forecasting Need

Understand how need for services is changing in your community

Mapping Analysis

Easily compare projected needs, current locations, and Saturation Maps

Integrated Analysis

Combine data from publicly available data, internal databases and state requested data to create a clear picture of the need in your community

Showcasing the Results

Well-written and illustrated summary report and Power-Point Executive Summary provided

You know how many families you serve — let us tell you how many eligible children and families are still out there.

We provide child care agencies access to high quality analysts who specialize in quantitative analysis for the child care sector. We work with you to answer the critical question of how many un-served children remain in your service area — a question that impacts your business operations, strategic plans and advocacy efforts. We have the tools and experience to produce the answers you need. A complete Needs Assessment will:

Inform Key Business Decisions

Effective, application driven analysis

Support Effective Advocacy

Clearly presented data will solidify your efforts to get the attention of policy makers

Inform Outreach Efforts

Results with an applied focus giving decision makers the information they need
